Dear Members of the class of 1996.

Thank you for the opportunity to write to you. Your graduation signals the end of one part of your life, and the beginning of another. You'll find this pattern repeats itself time and time again.

Like you, I am approaching another beginning. Like you, I do it with a mixture of anticipation and anxiety. Anticipation because it is something new that I have never done before. Anxiety because it is something I have never done before.

I have been a high school administrator, at one level or another for twenty-one years. I have found the task to be frustrating, exciting, depressing, invigorating, and always, challenging. It has never, ever, been boring.

As a group, you embody all the qualities I have experienced in all the other students I have known. As a group you also give me great confidence in the future. You have proven to be resiliant, creative, respectful, responsible, idealistic, energetic, and most of all, fun.

Best of luck to all of you as you leave BHS. Thank you, and all the other classes from 1987 to 1999, for making my job as your Principal as rewarding as it has been.

Sincerly yours, Keith Manville, Ed.D

My hands were busy through the day, I didn't have much time to play The little games you asked me to. I didn't have much time for you.

I'd wash your clothes, I'd sew and cook, But when you'd bring your picture book And ask me, please, to share your fun, I'd say, "A little later, Son."

I'd tuck you in all safe at night, And hear your prayers, turn out the light, Then tiptoe softly to the door. I wish I'd stayed a minute more.

For life is short, and years rush past, A little boy grows up so fast. No longer is he at your side. His precious secrets to confide.

The picture books are put away, There are no children's games to play, No good-night kiss, no prayers to hear. That all belongs to yesteryear.

My hands once busy, now lie still The days are long and hard to fill. I wish I might go back and do The little things you asked me to.

Ryan
